NPS boat crew provides services for visiting ships to Monterey

"First impressions usually last" is an expression that aptly describes the situation between ships visiting the Monterey area and division two of the NPS recreation department. The division runs the 40' utility boat used to transport crews and visitors from pier to ship and back.

They respond to any need the ship crews may have, whether it's to arrange for refueling, obtain additional transportation, or get food to them from the NPS galley. This is in addition to the usual chores of pool and utility boat maintenance that the four petty officers and one fireman of the division attend to.

"Once the public affairs officer advises us of dates of a port visit and a ship's needs, we work up a schedule," said BML Ben Boyer, leading petty officer of the division. (continued page three)

Captain Dully receives award

In a brief ceremony held recently in the superintendent's office, CAPT Frank E. Dully, Jr. was awarded the Legion of Merit in recognition of his exceptionally meritorious conduct in performing outstanding service.

Some excerpts from the accompanying citation attest to CAPT Dully's leadership and medical skills while commanding NAMI, a unit of 150 physicians engaged in aviation medicine and aeromedical training.

"(CAPT Dully) provided expert consultative services and...his knowledge and credibility with both line and medical department communities were instrumental in developing aeromedical policy. CAPT Dully established quality assurance standards for student personnel and certification criteria for selected aviation examination facilities."

As reported elsewhere in this issue, CAPT Dully recently reported to NPS for duty as a flight surgeon.

USS Ogden in Monterey

To help celebrate the Navy's 210th birthday, the USS Ogden (LPD-5) will arrive in Monterey for a port visit, Oct. 11-15.

As part of the celebration, the USS Ogden will host public visiting Oct. 13 and 14, 1000-1600.

When the ship arrives in Monterey, it will carry a crew of 31 officers and 422 enlisted men. The USS Ogden is commanded by CAPT David R. Edwards.

Pay raise not expected in Oct. 15 check

Don't look for the three percent pay raise in your Oct. 15 paycheck, at least not yet. Congress has not passed the FY86 authorization bill.

A continuing resolution authority has been authorized to cover military and civilian payrolls, but it does not cover any of the new benefits or entitlements of the FY86 bill. In addition, some existing special pays are not covered by the continuing resolution.

The pay raise will be retroactive to Oct. 1, once the authorization bill has been passed. Back pay will be paid as a lump sum in the first paycheck following President Reagan's signing of the bill. However, Secretary of the Navy John Lehman cautions servicemembers that not all of the new benefits and entitlements will be retroactive.

From the Superintendent

CAPT Frank E. Dully, Jr. has recently reported for duty at the Naval Postgraduate School, having relinquished his command of the Naval Aerospace Medical Institute at Pensacola, Florida.

CAPT Dully is a flight surgeon with more than 20 years of naval experience and over 1600 flight hours. During his naval service he has worked vigorously to promote the recognition and management of stress.

His primary duty will be as an instructor and lecturer in our aviation safety school, located in the east wing of Herrmann Hall. That school, as you know, teaches short courses to about 600 Navy and Marine officers yearly.

As a secondary duty, CAPT Dully will provide limited services to the U.S. Navy students, staff and enlisted contingent here at the school. Such services will include:

--Flight physicals and other periodic evaluations for naval aviators and other officers (after preliminary lab work at the presidio; this should cut down the present inconvenience of travelling to Fort Ord and to Fritchfield);

--"Shoe box" medicine, or service of a minor nature not requiring laboratory equipment;

--Advice to students who may be experiencing stress symptoms.

Naval personnel desiring an appointment can stop by his office, or call ext. 2581. CAPT Dully will be delivering a lecture on stress in King Hall at 1515 on Oct. 29. He has lectured extensively and one of his more popular lectures has been fetchingly entitled "Sex and the Naval Aviator."

CAPT Dully will reside on campus at Quarters "J" with his wife Becky. He will maintain an office in Spanagel on the ground floor (101D, formerly the superintendent's auxiliary office) and hours of operation will be posted on the door.

News briefs

The Menneken Fellowship for Scientific Research, given annually by the NPS Foundation, has been awarded to Robert G. Kelly for the 1985-86 academic year.

Kelly, a doctoral student at Johns Hopkins University, was chosen for his innovative work on lithium/iodine batteries.

The fellowship was established in honor of Dr. Carl E. Menneken, former NPS professor of electronics and dean of research administration. It is presented each year to a student whose scientific work may benefit Navy technology.

The La Mesa Elementary School will hold its Fall Festival on Oct. 26 at the school. The public is invited to the festival, which will begin at noon and run until 1600.

There will be game booths, cooking contests, big wheel races, face painting, cake walk, apple dunking, pony rides and much more.

All tickets are 25 cents, with the proceeds going to education programs at the school. The Fall Festival is sponsored by the PTA.

Effective Oct. 11, the public works department will be assuming the function of the audio/television division of the educational media department.

All requests for audio/visual support should be submitted to Code 435 on an EMD service request form (NPS 5210/3). The equipment issue room will be in Bldg. 226, ext. 2261.

If you have children that are four years of age or younger, or weigh less than 40 pounds, they must be secured in an approved car seat whenever they are riding in a motor vehicle.

This is mandated by a California vehicle code. Anyone not complying with the code could face a fine of more than \$25.

Safetyline

The final FY85 mishap statistics for the Naval Postgraduate School have been sent to the Navy Safety Center. The figures are:

Total military injuries:	9
Total private vehicle accidents:	4
Total government motor vehicle accidents:	2
Total civilian injuries:	45

The president's goal of a three percent reduction in new injury cases for FY 85 throughout the federal government was achieved by NPS personnel. This program has two more years to run. As the goal grows smaller, the achievement becomes more difficult.

Tip of the month: When is the last time you checked for fire hazards where you work?...In your home?

NPS crew provides services (from page one)

"We are responsible for getting the ship's crew back and forth from their ship, what are called liberty runs. We're also down at the Coast Guard pier for public visiting, manning our boat, taking visitors out to the anchored ship and back. There are times we take food to the ship, and do anything else we can to help them while they're here," he said.

The division is in a 24-hour duty status during these visits, working six to eight hours during weekends and holidays in order to ensure the crews have all they need. BM1 Boyer enjoys the satisfaction that "we can do anything they ask us to. We show the ships this attitude, and it's a good feeling," he said.

Since the division consists of several rates, each member must know what the other rates do. This requires cross-training throughout, and constant re-adjustment after their short three-month stay. "The engineers train as coxswains, and vice-versa," according to BM1 Boyer. "After three months in the pool area, they rotate with those on duty at the Quarterdeck," he said.

EM2 Terry Rooks, who can be found vacuuming the pool, hosing the deck, and keeping the area disinfected on a given day, said, "I like the independent work this job affords. We're given specific directions at the beginning of the day and are trusted to carry them through."

The maintenance supervisor at the pool, SM2 Chris Cation, feels the division works well together. "There is no conflict here. When a new person arrives, everyone helps them out any way they can. They're willing to take time out from their work to lend a hand, and even spend off-duty time helping out. I wanted to work here because of the sunshine and pretty girls, but found the work to be a bit more demanding, but satisfying," he said.

The engineer for the 40' utility boat, BM3 Rick Weber, believes "being outdoors is the best part of my job." His responsibilities demand that the boat is in top condition before each ship visit, and BM3 Weber also does his share of duties at the pool.

The youngest engineer for the utility boat, HTFN Jeff Gauthier, has maintenance duties at the pool as well. "I feel a good sense of responsibility considering I'm the only non-rate on the team. I get a lot of respect from the others, and feel fortunate to work for such a good chain of command," he said with the air of satisfaction and rapport

Rec news

Trips and tickets

The recreation office has the following tickets and trip packages available.

Disneyland Military Days tickets, \$12, valid weekdays in October and any day in November through Dec. 24.

San Francisco Fashion Outlet Oct. 12, \$16.

Reno trip package Oct. 18-20, \$68.

Great America Octoberfest tour Oct. 19, \$16.

Rams vs. 49ers game package Oct. 26 and 27, \$55, includes round trip travel to Anaheim, one night lodging and game ticket.

For additional information on any of these activities, contact the rec office at ext. 2466.

Basketball players

The rec office is still looking for women and men basketball players. Sign up at the gym. For more information call 646-2466 or 646-3118.

Classified ads

Ads must be placed by NPS personnel (faculty, students, staff) and be noncommercial in nature.

Ads may be submitted in person or via mail/guard mail, and must reach the Public Affairs Office no later than noon Monday for publication in that week's issue. Ads will be run on a first come, first served basis. Please notify the PAO of any ad cancellations by calling ext. 2023. Ads will be run for a maximum of two weeks unless resubmitted.

FOR SALE: Tennis racquet, 4-5/8" long; Window A/C; Honda Accord Mask (Bra), fits '78-'80 models; 1.7 ct. diamond ring. Call 646-9269 day or night.

CLASSIC MC TD 1952 excel. cond. Call 348-4588 or 646-2583.

MONTEREY VAC CONDO FOR RENT close to NPS and La Mesa. Furnished, sleeps 4--by week or weekend. Call 646-2551.

8 FT. COUCH floral print-beige, green, rust, yellow, \$175. Call 394-2032.

Federal wage system

Hearing to be held Oct. 21

A hearing to allow groups and individuals to make recommendations concerning a federal wage system survey will be held Oct. 21 at 0900 in the civilian personnel training room, Bldg. 3005, at Ft. Ord.

The hearing will address survey area definition as well as the industries, establishments and jobs to be included in the survey. The results of this survey, which will be conducted in March 1986, will be used to establish the pay rates for the federal wage system in the Salinas-Monterey area.

Recommendations and supporting evidence must be presented in writing to the local wage survey committee at or before the hearing. This committee is not authorized to hear or act upon job classification complaints.

Any group representative or individual desiring to appear at the hearing must contact the local wage survey committee at the following address:

Warren R. Hallum/Anne Hoff
Civilian Personnel Office
Fort Ord, CA 93941-5700
Phone: Commercial (408) 242-3706/4719

Are you conserving energy?

"We must demonstrate strong support throughout the Navy for sound energy management. A successful 1985 Energy Awareness Week is a key step in this effort," John Lehman, Secretary of the Navy said. This year's eighth annual Navy Energy Awareness Week will be Oct. 21-27 and will bear the theme "Energy--Mission Critical."

The purpose of Energy Awareness Week is to emphasize energy management throughout the chain of command, to meet energy goals and to responsibly utilize the nation's defense resources.

NPS activities will be noted in next week's issue of "The Quarterdeck."

Civiscoop

Applications for the following vacancies are now being accepted in the Civilian Personnel Office. Consult the Merit Staffing Program Announcement in your department for further information.

<u>Position & Announcement #</u>	<u>Location</u>	<u>Grade</u>	<u>Closing Date</u>

Life of Jesus portrayed in film at King Hall

The movie "Jesus" will be shown in King Hall on Sunday, Oct. 27.

Sponsored by the office of the NPS Protestant chaplain, this two-hour movie is based solely on the Book of Luke, and the actor portraying Jesus speaks only those words attributed to Jesus.

This professionally produced film is backed by five years of painstaking research and was filmed entirely in the Holy Land. It is easily the most accurate film ever made on the life of Jesus.
